

Hey parents!

Here in UpStreet we strive to provide as much fun as we can as we connect kids and leaders. We exist to tell kids about their own personal relationship with a God who loves them, and we know that kids don't care what you have to say until they know that you care. We also know that fun actually communicates care to a child. It's hard to connect right now so let's see how much fun we can have as we move toward connecting in person again! You'll see a change in our video content and some of our crazy challenges as we take a more laid back, YouTube-style approach to summer. We hope to have a summer of fun, and to keep our precious UpStreeters excited to come back in person! Just flip this card over to see how you can help them join the fun.
